

Getting Started

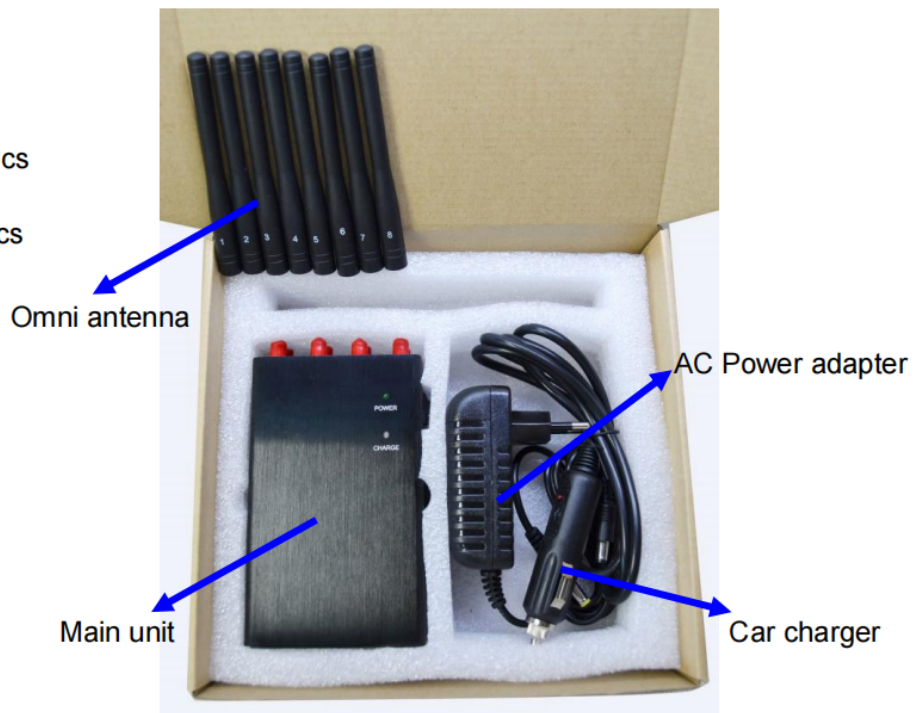

Thank you for choosing our signal jammer. Allow us to provide you with an introduction and a clear understanding of the button placements, accessory functions, and other hardware features.

Unboxing and Initial Setup

Carefully open the packaging and retain it for potential future use, such as storage or shipping purposes. Ensure that all components are in good condition. If you encounter any damaged or defective items, please [contact us](#) immediately.

Accessories:

Main unit x 1pcs
Power adapter x 1pcs
Car charger x 1pcs
Omni antenna x 8pcs

Installation Step

Important Notices

- © Prior to initial use, ensure the battery is charged for a minimum of 5 hours.
- © Before initiating the charging process, switch off the power. While the battery is charging, the indicator will illuminate in RED, and it will switch to GREEN once charging is complete.
- © Do not switch on the power supply before connecting all antennas.
- © Do not remove antennas while the mainframe is in operation.
- © Ensure proper ventilation when installing the jammer.
- © Position the antennas vertically to the ground for optimal performance.
